Frank C. Boucher, CEBS, CFP®

Thirty-year industry veteran Frank Boucher is owner and founder of Boucher Financial Planning Services. The firm offers hourly, fee-only services on an as-needed basis. It does not sell products or accept any revenues from third parties. All compensation comes solely from the firm’s clientele.

Prior to starting his own practice, Frank worked for a national association that provided financial education and individual planning services to its members’ employees – all of whom were “every day people” from all walks of life. Over time, Frank learned that everyone had important financial issues but it disturbed him when he saw how difficult it was for these people to get competent, objective help when they needed it. “Much of the advice they got was from people who sold investment products” says Frank, “and they really weren’t comfortable with that. I decided that when I went on my own that I would not only focus on serving this market but that I would offer the kind of independent, flexible help that I’d want if the tables were turned.”

Services offered include:

- Comprehensive Financial Plans
- Portfolio Analysis and Review – including 401(k) plans
- Asset Allocation and Risk Tolerance
- Retirement Planning
- Estate Planning
- Life and Disability Insurance Needs Analysis
- Insurance Review
- Tax Planning
- College Education Funding
- Cash Flow and Debt Analysis
- Employee Education Programs
- Financial Check Ups/Second Opinions

Any or all services may be rendered under a single engagement or a series of engagements over time. “People often think that financial planning is just about investments and they tend to focus their energy on near-term investment returns,” says Frank. “Unfortunately, we have little, if any, control over tomorrow’s investment results but, if we learn to define our goals and manage the things we can control like expenses and debt, the inevitable ups and downs of our investments won’t have as much impact on us emotionally. Peace of mind and a sense of surety is what financial planning is all about.”
